VACANCY

DIRECTOR
INSTITUTE OF TECHNICAL EDUCATION & TECHNOLOGY

About the Institution

The Institute of Technical Education and Technology (ITET) is a body corporate, established under the aegis of the Ministry of Education, Tertiary Education, Science and Technology, responsible, inter alia, for the provision of high quality technical and technology education, for the effective and efficient management of the subject of technical and technology education and for the award of technical and technology qualifications.

The ITET will also run a network of technical and technology education centres that will provide work based, on-campus and online education to prepare students for a modern, collaborative and fast-changing Career in Mauritius and beyond.

The ITET Council invites applications for the position of Director on contract.

About the Role

The inaugural Director of ITET will be an engaging and dynamic leader who aspires to transform the technical and technological education landscape of Mauritius. The Director will be a hardworking, skilled strategist able to envision, develop and implement a new model and approach to technical education that delivers competency-based education and lifelong learners to be career-ready. This individual will also have a proven track record of building relationships with industry, the community and international partners while improving students’ journey from education to employment. The Director will also be required to engage and build sustainable relationships with the industry, business sectors, public bodies, the community and stakeholders both at local and international levels.

Skills and Qualifications Required

The Director must possess demonstrated successful senior executive experience of at least 10 years. Previous experience must include significant responsibility for programs, budgets, personnel, facilities and other appropriate administrative duties. Successful candidates must have proven leadership abilities along with excellent communication skills, a strong sense of integrity and accountability. She/he must espouse the vision of ITET and possess the skills and energy for prompt implementation and a clear demonstrated ability to work with business, industry, government, and the community at large.

The Director shall hold (i) a Master’s Degree in either Business Administration or Education or Management; and (ii) a degree in Science or Technology or Engineering or Mathematics; or equivalent qualifications to (i) and (ii) acceptable to the Council.
