**Question of: PREVENTING SPILLOVER VIOLENCE TRIGGERED BY CIVIL CONFLICTS IN WAR-TORN AREAS**

Recalling the San Francisco conference of 1945, with the goal of preventing the repetition of the horrible event of World War 2 which was a key towards saving succeeding generations from the scourge of wars,

Grieved by the fact that the Middle East is now a home to civil conflicts and Article 26 has been weakly reinforced, leading to little to no regulation of armaments in war-torn areas and a dangerous pseudo arms race,

Deeply concerned with the increasing number of assassinations in war torn countries which further encourages the spread of bloodshed to neighbouring countries,

Deploring cases where children are becoming victims of terrorism attacks and are being deprived of their basic necessities,

Noting with deep regret that despite continuous efforts, contemporary forms of retaliations are still persistent and are growing in magnitude which is aggravated by socio-cultural dissimilarity and demilitarize zones are taken for granted,

Recognizing the strong condemnation of terrorism and wars in all their forms and manifestations, committed by whomever, wherever and for whatever purposes, as it constitutes one of the most serious threats to international peace and security,

1. Draws the attention of economically capable member states into funding the protection of endangered civilians by providing part of their military troops for protection;

2. Appeals to concerned countries to secure their borders through the implementation of stricter immigration laws and regulations;

Sponsors : Argentina, Belgium, Brazil, Israel, Denmark, Nigeria, Thailand, Ukraine, United Arab Emirates, Uruguay

3. Encourages member states to donate fully operational airplanes and helicopters to facilitate the provision of medical, food and military troops;
4. Requests Member states to join hands together in order to promote international security and peace in the world as per the treaty signed after the second World War;
5. Demands accordingly that the DISEC committee is given an influx of power to intervene independently in the limiting of arms trade and to implement sanctions thereby reducing violence;
6. Urges countries supplying arms and weapons to reduce their trade in arms by increasing sales taxes;
7. Calls upon the help of UN peacekeepers to build sustainable institutions of governance, through human rights monitoring and security sector reform;
8. Encourages non-profit organisations and non-governmental organisations to provide their help in evacuating people specially the injured one to safer places where treatments and assistance will be provided;
9. Recommends a reinforcement of the defense sector of affected countries with a view to promote peace and protect civilians from violence;
10. Further recommends strict laws to be implemented in war torn and war prone countries such that possession of weapons is allowed only on specific conditions so as to prevent spillover violence;
11. Emphasizes on the importance of a more diplomatic approach towards solving international conflicts through bilateral or multilateral negotiations.
