Each qualification in New Zealand has different entry requirements. One of those requirements considers your previous qualifications against the qualification you are applying for. There are additional entry requirements for some qualifications offered at some New Zealand institutions. These entry requirements are separate and additional to the English language entry requirements.

As a general rule, for those wishing to complete a Postgraduate qualification an overall IELTS score of 6.5 and no band less than 6.0 is the minimum required.

However, each institution set their English language requirements, and these may be different depending on the qualification that you are interested in. We strongly recommend you contact your preferred education institution to find out what the English language requirement for your chosen programme of study is.
